

B2B-Solution-Architect Dumps

Salesforce Certified B2B Solution Architect Exam

<https://www.certleader.com/B2B-Solution-Architect-dumps.html>

NEW QUESTION 1

What should a Solution Architect do to ensure that all requirements for a multi-cloud implementation are captured during discovery sessions so that project stakeholders are aligned with the project team on deliverables?

- A. Develop and present the business case to all project stakeholders before beginning the solution design and development phase.
- B. Develop and present the project scope itemized within the requirements document to all project stakeholders before beginning the solution design and development phase.
- C. Define and document the user journey map with project stakeholders to capture the customer interactions at all touchpoints.
- D. Define and document the business value map with project stakeholders to capture the value provided by the implementation.

Answer: B

NEW QUESTION 2

Universal Containers (UC) is selling containers globally via distributors and is experiencing significant double-digit growth year-over-year. UC uses a centralized ERP system that holds the financial information of the distributors. The ERP system is siloed but offers connectivity via APIs. The account managers need to reference the financial information stored in the ERP while approving an order of a distributor inside Salesforce. The financial information of a distributor may change ad-hoc during the day in the ERP system and account managers need the latest data in front of them.

What should a Solution Architect recommend while designing an integrated, scalable solution to meet UC's needs?

- A. Use Change Data Capture to update the changes on the financial information inside Salesforce in near-real time.
- B. Use the scheduled data loader to extract the financial information every night from the ERP and save it inside Salesforce.
- C. Retrieve the financial information on-demand from the ERP via API and display the information as read-only using a lightning component.
- D. Schedule a MuleSoft batch job to retrieve financial information from the ERP every night and store it inside Salesforce for quick access.

Answer: C

NEW QUESTION 3

Universal Containers (UC) is currently utilizing Salesforce Revenue Cloud, Service Cloud, and Field Service for its internal Sales teams, call center, and field service teams. The field service team has asked for new data visibility around Sales and Service data because customers in the field will often ask about sales orders that typically exist within Revenue Cloud.

What is an immediate consideration a Solution Architect should provide regarding giving this kind of data access?

- A. Generate a new permission set that grants access to the Order object and assign it to the field service users.
- B. Generate a new profile that grants access to the Order object and assign it to the field service users.
- C. Provide the field service team with CPQ licenses to view Order data.
- D. Provide the field service team with a Sales Cloud license to view Order data.

Answer: A

NEW QUESTION 4

AW Computing (AWC) has just completed a multi-cloud implementation for Salesforce and is facing major user adoption challenges. Users are complaining that the system is complicated and hard to navigate.

What can the Center of Excellence (CoE) for Salesforce do to help increase user adoption?

- A. Place all training materials on the home page so users can find them easily.
- B. Record hour-long pieces of training for each job role so users can review on their own time.
- C. Break down training materials into quick reference guides for job-specific functions.
- D. Ensure each team has a Salesforce champion that can provide one-on-one training.

Answer: A

NEW QUESTION 5

During a B2B multi-cloud implementation, an executive sponsor from Universal Containers (UC) approaches the Solution Architect to discuss ongoing support and new functionality that will be rolled out to support UC. The current implementation supports Experience Cloud, Service Cloud, and Sales Cloud.

Which three recommendations should a Solution Architect make to ensure features are enabled without impacting user efficiency?

Choose 3 answers

- A. Give users a way to raise support tickets for new features they do not understand.
- B. Give users the ability to opt-out of any new feature they dislike.
- C. Fully document all customizations added to the system.
- D. Communicate and train users on new features.
- E. Ensure development, training, and production environments are in place.

Answer: ADE

NEW QUESTION 6

A Solution Architect has been hired to help design and implement a quoting solution for AC Computers on Salesforce to support omni-channel selling. During discovery with the client, the Solution Architect learns AC Computers currently uses spreadsheets to manage its pricing and product catalog, which includes thousands of SKUs with a variety of attributes that determine pricing. The current quoting process is long and tedious because it requires a sales representative to find individual products and manually input that information into Salesforce.

The Sales team complains that they are spending too much time searching for the right product and Product Management is spending too much time trying to manage SKUs. AC Computers wants to move away from manual quoting processes and toward simplifying its product catalog.

Which recommendation should the Solution Architect make given the business requirements?

- A. Work alongside client stakeholders to perform a SKU optimisation; implement Salesforce CPQ product catalog and guided selling.

- B. Work alongside client stakeholders to perform a SKU optimisation; implement Salesforce Order Management and special pricing.
- C. Create Products and Price Books in Salesforce for the current product catalog to streamline future pricing and product catalog management; implement Salesforce CPQ product catalog and guided selling.
- D. Create Products and Price Books in Salesforce for the current product catalog to streamline future pricing and product catalog management; implement Salesforce Order Management and special pricing.

Answer: C

NEW QUESTION 7

AW Heat & Cooling is a mid-sized manufacturing company that sells special purpose heating and cooling solutions. Sales have declined significantly, and analysis shows that customers are leaving due to long turnaround times for quotes, lack of flexibility, and confused salespeople that do not understand their customers and do not collaborate with each other. The company wants to streamline and improve the customer experience from end to end, including new communication channels and digital self-service offerings.

How should the Solution Architect arrange the roadmap to implement the company's stated priorities?

- A. Start with Service Cloud and Revenue Cloud, followed by Experience Cloud and, later, Sales Cloud.
- B. Develop a comprehensive solution that includes Sales Cloud, Revenue Cloud, Service Cloud, and Experience Cloud as a basic version from the start.
- C. Fast-track Service Cloud followed by Sales Cloud, Revenue Cloud, and, later, Experience Cloud.
- D. Start with Sales Cloud and Revenue Cloud, followed by Service Cloud and, later, Experience Cloud.

Answer: D

NEW QUESTION 8

Universal Containers (UC) uses Sales Cloud, Service Cloud, and Experience Cloud. The implementation was completed 5+ years ago, and Service Cloud users are now expressing dissatisfaction with system performance. A custom Visualforce page was developed to show relevant data to Experience Cloud users. The same page is used by the Support team but displays more information based on their profile. UC has a small internal Support team for Salesforce that periodically enables new features in production.

Which best practice should the Solution Architect recommend to avoid these types of issues in the future?

- A. Assess the level of technical debt and test new features with the Product team in a Developer sandbox.
- B. Assess the level of technical debt and test new features in a sandbox before enabling in production.
- C. Assess the level of data quality and test new features with a pilot before enabling for all users.
- D. Assess the level of data quality and test new features with a subset of users in production before enabling all users.

Answer: C

NEW QUESTION 9

A Solution Architect is presenting a design for the Phase 1 rollout of a B2B multi-cloud solution that includes CPQ and B2B Commerce using the CPQ B2B Commerce Connector. During the presentation, business stakeholders push back on some of the key design aspects. The business is keen to have the product images and SCO data pushed back to CPQ from 828 Commerce, which is not incorporated in the current design. Further, the business wants the Solution Architect to find a way to map discounts and promotions in 828 Commerce to CPQ pricing and add that to the Phase 1 deliverables.

Which two responses should a Solution Architect present to the stakeholder s? Choose 2 answers

- A. There are significant differences in the discounting models and options between B2B Commerce and CPQ, and for that reason, it is better to handle them separately
- B. without syncing to CPQ.
- C. Product Images and SCO data are B2B Commerce specific metadata
- D. It is recommended to keep them only in 828 Commerce, and not push to CPQ.
- E. Map the product images from B2B Commerce to CPQ, by passing the URL of the image File from CC Product to Product2 object
- F. SEO data sync will require additional customization and it is recommended for Phase 2.
- G. Map the discounts and promotions to Additional Discounts field on the quote line
- H. However, we would need to ensure that the price rules do not run for quotes originated from B2B Commerce unless there is a specific business need.

Answer: AB

NEW QUESTION 10

A shipping and logistics company uses Sales Cloud, Service Cloud, and Marketing Cloud. It relies on Salesforce standard reports for its current KPIs. However, the company wants to see report trends and complex analytics. It also wants the reports to be visible to Salesforce users as well as non-Salesforce users.

Which recommendation should a solution Architect make to meet the company's needs?

- A. Sales Cloud Einstein
- B. Reporting snapshots
- C. CRM Analytics
- D. Standard Dashboards

Answer: C

NEW QUESTION 10

Universal Containers (UC) needs to support its customers via email, phone, and chat. Service agents are only scheduled to support one communication channel for each shift. UC has implemented a service-focused community but only wants customers to inquire about service in the community through chat.

Which three options should a Solution Architect recommend to meet the requirements defined above? Choose 3 answers

- A. CTI adaptor with Omni-Channel integration
- B. Customer Community with ability to create a new support Case
- C. Experience Cloud, web-to-case, and a CTI integration
- D. Omni-Channel with defined presence, routing configurations, and Service Channels
- E. Customer Community with Live Agent

Answer: ABE

NEW QUESTION 15

A Solution Architect is working with Northern Trail Outfitters' Sales and Services team. They are currently evaluating how many environments they need to procure. As part of a preliminary review, it was identified that although the different business units were happy working in separate environments, there is a requirement to know each other's transactions.

Which two requirements would make the Solution Architect recommend a Single org over a multi-org strategy?

Choose 2 answers

- A. Collaboration between lines of business
- B. Simple security architecture across lines of business
- C. Global case management across lines of business
- D. Access to shared lines of business data

Answer: AD

NEW QUESTION 16

AC Computers has decided to extend its existing Sales Cloud solution by implementing Service Cloud and Marketing Cloud Account Engagement. AC Computers has defined two different work streams for Service Cloud and Marketing Cloud Account Engagement and wants each workstream to work iteratively in separate sandboxes and migrate to a single sandbox for UAT and integration testing. With the multiple workstreams, AC Computers needs a more rigorous change management process and an audit process.

Which two options should AC Computers consider to support both implementation workstreams? Choose 2 answers

- A. Use multiple development sandboxes and merge the workstream builds using change sets.
- B. Use a version control system and CLI-based deployment tools to merge the workstream builds.
- C. Use scratch orgs and continuous deployment tools to merge the workstream builds.
- D. Use package-based deployments and scratch orgs to merge the workstream builds.

Answer: AC

NEW QUESTION 19

Universal Containers (UC) wants to enhance the online purchase experience for its customers. The product and pricing information is managed in a separate ERP, while customer purchases are primarily triggered online through self-service. UC often offers promotions and discounts through various online seasonal events. UC wants the ability to provide customized quotes based on its relationship with the customer, as well as proactively process and monitor renewal and upgrade opportunities.

A Solution Architect has identified Sales Cloud, CPQ, Billing, and B2B Commerce as part of a potential multi-cloud solution.

Based on the above considerations, which option identifies the optimal data flow for this solution?

- A. Pricing and Product data should be pushed from ERP to B2B Commerce via the CPQ B2B Commerce Connector to CP
- B. Promotions should be handled in B2B Commerce
- C. Invoice and Billing should be maintained in Billing and surfaced on B2B Commerce via a Lightning component.
- D. Pricing and Product data should be pushed from ERP to CPQ and from there to B2B Commerce via the CPQ B2B Commerce Connector
- E. Promotions should be managed in CPQ as CPQ is the pricing master
- F. Invoice and Billing should be managed in B2B Commerce and pushed to Billing.
- G. Pricing and Product data should be pushed from ERP to both CPQ and B2B Commerce, keeping single source of truth
- H. Promotions should be handled in B2B Commerce
- I. Invoice and Billing should be maintained in Billing and pushed to B2B Commerce.
- J. Pricing and Product data should be pushed from ERP to CPQ and from there to B2B Commerce via the CPQ B2B Commerce Connector
- K. Promotions should be handled in B2B Commerce
- L. Invoice and Billing should be maintained in Billing and presented on B2B Commerce via a Lightning component.

Answer: A

NEW QUESTION 22

Universal Containers (UC) recently completed its migration to Lightning Experience, with sales users automatically moving to Lightning. This initiative was a massive undertaking by UC, as it had a tremendous amount of legacy functionality migrated over to Lightning from Classic. The CIO would like to make sure that UC is able to track adoption of the migrated functionality over from Classic to Lightning and what specifically was migrated.

Which two proposals should a Solution Architect recommend? Choose 2 answers

- A. Provide the CIO the ability to roll back all changes once they feel Lightning is not adequate for their needs.
- B. Track Adoption Rates within the Lightning Usage, and monitor a change in metrics within existing reports and dashboards.
- C. Provide the CIO a list of the User Stories around the new functionality and the Gap Analysis done between Classic and Lightning.
- D. Align with the CIO around the fact that while the functionality has been migrated, the data created between Classic and Lightning will remain exactly the same.

Answer: BC

NEW QUESTION 24

A corporate bank has decided to use a multi-cloud solution to reduce time to market, showcase a 360-degree view of the bank's business customers, and improve CSAT rating by increasing channels for customer service. The CIO has asked to run a discovery workshop with one goal: understanding existing technical dependencies within the organisation.

What should a Solution Architect recommend as the top priority to start this journey?

- A. Plot the map of the future system landscape by making assumptions about the changes needed to improve customer satisfaction.
- B. Plot the map of the current system landscape and identify key areas where the multi-cloud solution will fit in.
- C. Plot the process map using Universal Process Notation (UPN) through workshops involving a diverse set of stakeholders.
- D. Plot what the customer is thinking, doing, and feeling at the varying stages of their experience, and connect them to interactions with the bank.

Answer: C

NEW QUESTION 28

Universal Containers (UC) is about to embark on a digital transformation initiative to make all of its back-office systems data visible to employees, customers. And partners via front-office capabilities like Salesforce. The CIO has asked the team to identify their various systems, both back- and front-office, and correctly identify the proper use of those systems. The team plans to utilise the Systems of Engagement framework to classify their systems based on how they will be utilized within the enterprise architecture. Salesforce is being utilized as the master for all sales data-like Opportunities, Quotes, and Cart data—and an ERP is the master for all invoice, order, and payment data. How should the Solution Architect segment opportunities and order data in Salesforce*

- A. SOR for Opportunities and System of Intelligence for Orders
- B. System of record (SOR) for Opportunities and System of Engagement for Orders
- C. System of Engagement for Opportunities and SOR for Orders
- D. SOR for Opportunities and SOR for Orders

Answer: B

NEW QUESTION 32

Universal Containers (UC) manufactures automobile engine components. UC wants to set up an ecommerce website to deliver a seamless customer purchasing experience, both through self-service and field sales. UC also wants to showcase its extensive product offerings, operate regional promotions and discounts, and managed routing and contracting. UC is looking for guidance on a Salesforce multi-cloud solution to be implemented across phases. What should a Solution Architect recommend to meet UC's business requirements?

- A. Phase 1: Sales Cloud - - Phase 2: Service Cloud -- Phase 3: 626 Commerce
- B. Phase 1: Sales Cloud -- Phase 2: B2B Commerce -- Phase 3: Salesforce Field Service
- C. Phase 1: Service Cloud -- Phase 2: CPQ -- Phase 3: 626 Commerce
- D. Phase 1: Sales Cloud - - Phase 2: CPQ -- Phase 3: 626 Commerce

Answer: D

NEW QUESTION 37

Recently, Universal Containers (UC) successfully launched a multi-cloud B2B implementation with Sales Cloud, Service Cloud, Experience Cloud, and B2B Commerce. As the Sales and Service Cloud development was performed by separate teams, UC created Process Builder automation for the Account object in separate Process Builder processes. As customers go through the sales process within Sales Cloud, the data on their customer account record is updated. As those same customers make purchases within B2B Commerce, the data on their customer account record is updated as well. What are two reasons why a Solution Architect should recommend uniting these into a single Process Builder process? Choose 2 answers

- A. Moving them into a single Process Builder process helps to reduce the number of queries and avoid hitting limits on the Account object.
- B. Moving them into a single Process Builder process provides control over the order of the updates and actions triggered on the Account object.
- C. Moving them into a single Process Builder is the only way to ensure a naming convention is followed on the Account object.
- D. Moving one of the Process Builders into a flow will remove all automation conflicts on the Account object.

Answer: AB

NEW QUESTION 38

Universal Containers is in the process of implementing a CPQ and B2B Commerce solution. The Technology team has completed the development for the current sprint and is demonstrating the functionalities to the business stakeholders during their sprint demo. While demonstrating products and pricing, and Sync between B2B and CPQ when requesting a quote, the stakeholders make a new request to include tiered pricing and map it to discount schedules on CPQ. Which approach should a Solution Architect recommend while addressing the feedback from the stakeholders?

- A. Convey that this can be potentially picked up in the next sprint since the technical changes needed for this new user story are low effort.
- B. Include it as a user story and accommodate it in the same sprint, since this is a feasible requirement and the CPQ B2B Commerce Connector is already set up.
- C. Convey that it is not recommended to include in the initial MVP, since an extension is needed on the CPQ B2B Commerce Connector for the new requirement.
- D. Add the request as a new user story to the product backlog, and further schedule a meeting for prioritization and grooming.

Answer: D

NEW QUESTION 41

Universal Containers (UC) is currently using Sales Cloud, Revenue Cloud, Experience Cloud, and B2B Commerce. B2B Commerce and Experience Cloud are used for UC's end customers while the direct Sales team sells with partners through Revenue Cloud. However, partners want to work digitally versus through email.

The direct Sales team has asked the CIO how they can expose their Revenue Cloud capabilities to their partners and vendors using Salesforce. The CIO knows they are currently using B2B Commerce for customers and is wondering if they can do something similar for partners by exposing CPQ capabilities in Experience Cloud for partners.

What are two questions a Solution Architect should ask when evaluating either B2B Commerce or CPQ for partners via Experience Cloud? Choose 2 answers

- A. Will partners be using CPQ to sell to our customers that are utilizing our B2B Commerce tool today?
- B. Does the direct Sales team co-sell with partners or sell to partners in this new channel model?
- C. Do partners need to do complex configurations or create their special pricing?
- D. What do we need to invest in order to build the channel and where does that investment come from?

Answer: AC

NEW QUESTION 45

Universal Containers (UC) currently has Sales Cloud for its direct Sales team and is about to implement Revenue Cloud for them as well. UC is also bringing in Experience Cloud for its indirect Sales team which will integrate with Sales Cloud and Revenue Cloud. The CIO would like to make sure they are working from a

single operating model when it comes to defining their cross-departmental process and data utilization. The CIO wants to make sure there is no duplication of any data or processes that will require data hygiene constantly because of duplicative efforts.

What are the two initial questions a Solution Architect should ask the business in order to select the right operating model for business process standardization? Choose 2 answers

- A. Can the direct Sales team use the standard functionality?
- B. How critical are the business processes?
- C. Are the processes the same for the direct Sales team and indirect Sales team?
- D. Is the data shared between the direct Sales team and indirect Sales team?

Answer: CD

NEW QUESTION 46

Universal Containers (UC) uses Marketing Cloud and recently added Sales Cloud to manage its business activities, as well as B2B Commerce to redesign its website. Today, a lead is created each time a customer leaves the site without finalizing their purchase. The number of leads created is increasing and representatives can no longer meet their callback deadlines.

With the new website, UC wants to increase the number of finalized sales and offer similar products to customers while reducing the Sales team's workload. Sales representatives should only call back customers if there is an upsell or cross-sell opportunity.

Which three recommendations should a Solution Architect make to meet these needs? Choose 3 answers

- A. Create an opportunity when a customer clicks a cross-sell or upsell email link.
- B. Send automated emails in Sales Cloud with discounted offers to customers who abandoned their cart.
- C. Set up lead nurturing with Marketing Cloud and automate emails through journeys.
- D. Stop creating leads in Sales Cloud for abandoned carts.
- E. Put all leads from the abandoned carts in a queue.

Answer: ABC

NEW QUESTION 50

Universal Containers (UC) currently has Sales Cloud, Revenue Cloud, and Marketing Cloud Account Engagement within its existing Salesforce environment and is utilizing a standard Lead to Cash solution across those clouds. UC is 2 years into its Salesforce implementation, and the CIO is getting concerned with the sheer amount of data affecting its environment's data limits.

IT is doing upkeep on older records that may no longer be relevant. They have decided to start looking at data archival strategies and what to archive correctly. Given that this solution involves Leads from Marketing Cloud Account Engagement, Opportunities from Sales Cloud, and Quotes from Revenue Cloud, they are concerned about archiving related data on active sales pipelines. They also want to keep a historical snapshot of all of their Quotes, Opportunities, and Leads for future pipeline performance purposes and are open to options.

Choose 2 answers

- A. Propose Skinny Tables to the CIO before doing anything else.
- B. Understand the organization's regulatory requirements around right to retain or delete data.
- C. Recommend AppExchange solutions that provide capabilities around data archiving to the CIO.
- D. Segment the data in terms of data needed for daily operations, data that is used occasionally at demand, and data that is used purely for historical purposes.

Answer: BD

NEW QUESTION 55

Northern Trail Health has clients that have more than 10,000 employees. The company's Customer Service team handles requests from its client's employees directly and tracks various rebate programs per employee. Private information should not be shared with the Sales team and they should only see contacts that are relevant to the sales process.

Assuming that Sales and Service teams share certain contacts, in which two ways should a Solution Architect ensure optimal performance?

Choose 2 answers

- A. Use profiles and/or permission sets to give View All access to Customer Service on the Contact object.
- B. Set the Contact object to Public Read Only so that the sharing rules do not bog down performance for sharing.
- C. Assign all contacts to Sales team members to ensure sharing is streamlined and hide private fields from them.
- D. For each Account, assign Sales Contacts to the Sales team and all the rest to a Customer Service representative assigned to the Account.

Answer: CD

NEW QUESTION 57

At Custom Cabinets LLC, the service appointments often span over multiple days but are 2 to 4 hours in duration per day. The company would like to optimize the service resource's day and have them see as many customers as possible. Additionally, Custom Cabinets LLC would like a customer service representative to follow up with the customer once the field work has been completed.

Which approach should the Solution Architect take to meet these requirements?

- A. Leverage declarative automata to done Service Appointments for multiple day
- B. Like declarative automation to send a follow-up email to the customer.
- C. Leverage out-of-the-box Salesforce Field Service Work Types and out-of-the-box Multiday Service Appointment
- D. Use declarative automation to create a follow-up Case for customer service.
- E. Leverage out-of-the-box Salesforce Field Service Multiday Service Appointment
- F. Use declarative automation to send a follow-up email to the customer.
- G. Leverage out-of-the-box Salesforce Field Service Work Types and declarative automation to clone Service Appointments for multiple day
- H. Use declarative automation to create a follow-up Case for customer service.

Answer: C

NEW QUESTION 62

Universal Containers (UC) is an international company with activities in Europe and the U.S. UC has two separate Salesforce orgs, one for each region. Quotes

are built in different legacy systems, depending on their country. Orders are processed centrally by the back-office team with an ERP. Customer information is saved in both legacy systems and the ERP. The analyst team complains about the inconsistency of customer data between different systems and the lack of connection between a single piece of customer data across all of the systems.

Which approach would make it possible to set up this single source of truth and ensure scalability for orders?

- A. Use MuleSoft Anypoint Platform as the single point of data orchestration across the different systems and Salesforce environments.
- B. Map all of the points of data with a different ETL tool for each Salesforce environment and drive synchronization from Salesforce to the other systems.
- C. Use each Salesforce org as its own system of record (SOP.) and use Salesforce Connect to synchronise the two Salesforce orgs.
- D. Map all of the points of data within a custom data manager and drive synchronization between the different systems with a point-to-point approach.

Answer: A

NEW QUESTION 66

Fabulous Flowing has been using Salesforce for 10 years and is starting to notice performance issues. The company anticipates continued growth of 15% each year. It frequently refers to data that is within the past 12 months. Currently, there are 600,000 Cases. Fabulous Flooring realizes it needs to archive some of the data, however, would like it to remain in Salesforce. The leadership team meets for an in-depth strategy and planning session every 3 years and will need reporting on the archived data. The Solution Architect has recommended the use of Big Objects.

What are two considerations the Solution Architect should discuss with Fabulous Flooring? Choose 2 answers

- A. Picklist fields will need to be marked as required for indexing in the Big Object
- B. The company will need to use Async SOQL to pull the data into a subject based on specific criteria, and build reports and dashboards for the strategy and planning session.
- C. Picklist fields will need to be loaded as Text fields into the big Object.
- D. The company will need to build reports and dashboards for the strategy and planning session based on specific criteria from the big Object.

Answer: BC

NEW QUESTION 68

3D Scanners needs to apply a discount automatically on the Quote Line for Distributors while in the Quote Line Editor. The percentage discount applied depends on attributes of the Distributor Account and that of the specific Product. Sales users can add additional discounts; however, those will need to go through an approval process that allows for resubmitting to only those that previously rejected the additional discount.

Which two options should a Solution Architect recommend to meet the requirements while keeping the user experience in mind?

Choose 2 answers

- A. CPQ license
- B. Flow
- C. Price Rules
- D. CPQ Plus license

Answer: CD

NEW QUESTION 72

P&C Hardware is a large manufacturer of computer components and already has an extensive Salesforce technology stack including MuleSoft, Sales Cloud, Service Cloud, and Field Service, as well as Shield capabilities. P&C Hardware is in the process of launching an online store based on Salesforce technology that's supposed to go live in 6 weeks. P&C Hardware needs to analyze performance to identify bottlenecks and optimize the configuration using its agile process with weekly releases. So far, P&C Hardware has covered similar requirements for other technologies using a third-party monitoring and alerting tool it deployed in the cloud.

What are two viable options a Solution Architect should explore in more detail with the client? Choose 2 answers

- A. Leverage Shield Event Monitoring and MuleSoft to provide monitoring data to the third-party monitoring and alerting solution that's already in place at P&C Hardware.
- B. Leverage Shield Event Monitoring in conjunction with the Salesforce Debug Logs, and establish a regular review process for the Operations and Administration team.
- C. Leverage the B2B Commerce built-in performance monitoring dashboard to analyze performance in near real time.
- D. Leverage Shield Event Monitoring in combination with the CRM Analytics Event Monitoring app as a simple out-of-the-box solution.

Answer: AC

NEW QUESTION 73

Universal Containers (UC) is about to complete an initial planning of a complex solution involving multiple customer personas. UC wants to ensure it has a comprehensive understanding of what kinds of business outcomes the customers want to achieve before presenting them a solution.

Which method of discovery should a Solution Architect suggest to UC?

- A. Third-party research from well-known organizations
- B. Jobs To Be Done Framework
- C. Comprehensive Surveys to End Customers
- D. User Stories Creation with End Customers

Answer: C

NEW QUESTION 76

Universal Containers is currently utilizing B2B Commerce Cloud, Service Cloud, and Field Service for its Sales teams, call center, and Field Service teams. The Field Service team would like to have visibility of Commerce Cloud data because customers in the field will often ask about sales order details.

What should the Solution Architect recommend to give this kind of data access?

- A. Create a new permission set that grants access to the Order and Order Item object and assign it to the Field Service users.
- B. Create a new profile that grants access to the Order and Order Item object and assign it to the Field Service users.
- C. Give Commerce Cloud license to the Field Service team to view Order and Order Item data.

D. Give Sales Cloud license to the Field Service team to view Order and Order Item data.

Answer: A

NEW QUESTION 78

Mask Makers LLC has a traditional sales channel that uses an existing CPQ implementation to process orders. Customers frequently reorder previous purchases quickly and split the order into several deliveries for different locations. Additionally, these customers are given special pricing through Price Books m CPQ based on annual spending and other parameters. The customer currently makes their purchase by sending an email or calling their appointed sales representative, and then waits to receive a quote.

Mask Makers LLC wants to move away from this very manual and time-consuming process. The company wants to provide its customers with a personalized experience that is simplified and streamlined with existing special pricing visible and the option to self-serve- Mask Makers LLC would also like to deliver this within a short timeframe, as business must continue to grow.

Which design approach should a Solution Architect recommend to meet these requirements within the timeframe while adhering to best practices.

- A. Implement B2B Commerce and use the CPQ B26 Commerce Connector to integrate to CP
- B. Set 826 Commerce as the Product and Pricing master.
- C. Implement 626 Commerce and use the CPQ 626 Commerce Connector to integrate to CP
- D. Keep CPQ as the Product and Pricing master.
- E. Implement B26 Commerce and use the CPQ 626 Commerce Connector to integrate to CP
- F. Allow bidirectional updates to Products and Pricing.
- G. Implement B2B Commerce and build a custom integration to CP
- H. Keep CPQ as the Product and Pricing master.

Answer: B
